PHP, MySQL, Javascript, HTML and CSS Student Manager System

The Student Manager System **provides**:

- Front-end (HTML, CSS and Javascript) ;
- Back-end (PHP 7.3.21) ;
- MySQL (5.7.31) ;
- Pictures ;

29a is offering a complete version of Student Manager System with front-end and back-end programming.

The Student Manager System helps track student progress. It can also be used as a note manager or as a tracking sheet. The system is easily modified for specific needs and business processes.

The register form cleans the fields from injection by removing specials characters.
